Eye For An Eye

Story Of The Year

in my eyes
watch the world ignite
watch as we give everything to just be alive
with the fire in our hearts
we'll stand and fight
for the dream inside
take it back force way of minds
loss of living combines
it's more than words to read
this is our lifeeye for an eye bring your heart to the fight
cause we'll take the whole world down with us tonight
eye for an eye leave your weakness behind
burn down the lies
eye for an eye'til we die
let the hearts unite
?
it's our pride
just a passion that we hold inside
now the world is mine
hold it down for the ? 'til the day i die
cause this is more than blood we bleed
this is our lifeeye for an eye and bring your heart to the fight
cause we'll take the whole world down with us tonight
eye for an eye leave your weakness behind
burn down the lies
eye for an eyeeye for an eye
eye for an eye
