

Somewhere Over the Rainbow

[Marlisa](#)

When all the clouds darken up the Skyway
There's a rainbow highway to be found
Leading from your window pain
To a place behind the sun
Just a step beyond the rainSomewhere over the rainbow way up high
There's a land that I heard of once in a lullabySomeday I'll wish upon a star
And wake up where the clouds are far
Behind me
Where troubles melt like lemon drops
Away above the chimney tops
That's where you'll find meSomewhere over the rainbow bluebirds fly
Birds fly over the rainbow. Why oh, why can't I?
