Inhaler

Craig Armstrong

Water falling down a hundred meters
Colored by the sun in rainbow colors
Paul is driving me around through fields of light
Blinded by the sun fight the clouds
Be an inhaler have no doubts
Let them take you on a voyage to another
Let them take you on a voyage to another
Let them take you on a voyage to another
Water falling down a hundred meters
Colored by the sun in rainbow colors
Paul is driving me around through fields of light
Blinded by the sun fight the clouds
Be an inhaler have no doubts
Let them take you on a voyage to another

Let them take you on a voyage to another
Let them take you on a voyage to another
As I was saying, the stereo is full of surprises
A new stereophonic sound spectacular
A new stereophonic sound spectacular
We?re able to tell in an instant
Where a particular sound is coming from
A new stereophonic sound spectacular
A new stereophonic sound spectacular
A new stereophonic sound spectacular
A new stereophonic sound spectacular
A new stereophonic sound spectacular
As I was saying, the stereo is full of surprises
