# Hopeful

## Strangelove

I forgot myself today
The living daylights far away
I made my pictures dance and say
We're not feeling any pain
There was no one even near
To remind me of the fearLaughing with everythingI could stay here for a while
In a trance that lasts for miles
I'd make my words float round and smile
They're not feeling any timeLaughing with everythingI forgot myself today
Prison ship tied far away
Words and pictures make me say
I'm not feeling any painLaughing with everything
