## Royal Hunt

Future's comin' from the past  
Who's first and who's last  
Fire's risin' off the ground  
Fear's the king. Entire town  
Lookin' up across the sky  
Which one's turn to die  
All are one and worlds apart  
Undertakers workin' hard  
You'll remember the loss of fate  
December '48  
Devil's mark is on your face  
Black Death's all around the place  
Rotten bodies is were it's at  
Friends are gone and rats get fat  
Cross on fire fights the night  
Who will ever see the light  
Crowd in front of the heaven's gate  
December '48
