The Cycle

Villz

Promise I will give you everything you need
(To get further)
(To get further)
Like needle marks on hearts blood stains left on our sleeves
(Numb all your hurt)
Promise I'll take it all away
(Numb all your hurt)
It all away
Well I can take the lead
Follow me follow me
So accustomed to this lifestyle
Right now
Pure lust in the night crowd
Wild out till you mother fucking pass out
(Hook)
Cause we doing it over like it's new over again
Purgatory probably limbo in the night that never ends
I'm sleeping in the day
Get lost off in the night
It's alright
That your addicted to the life
Cause we all fall in
(The cycle)
We all fall in
(The cycle)
And it's so hard to get out
(The cycle)
Purgatory probably limbo in the night that never ends
(The cycle)
Start it over and over and over and over
Cause we doing it over like it's new over again
Probably limbo it never ends
I'm sleeping in the
Getting lost off in the
It's alright
That your addicted to the life
Cause we all fall in
(The cycle)
We all fall in

(The cycle)
We all fall fall so deep
(The cycle)
Paranoia probably limbo in the night that never ends
