

Blood on the Valley Floor

Soundgarden

All turns around
All together we stumbled
In there, a million pounds
Everyone with a raise around And the smoke lies
On the valley floor
And the blood dries
While we spill some more Once we were at the end
The end of a long road
Living to the skies
All the other remained crowns And the smoke lies
On the valley floor
And the blood dries In the summer these days
Children are alone
All alone with the point Hey
Hey
Hey
Hey Mountains are around
All together we tumbled down And the smoke lies
On the valley floor
And the blood dries
While we spill
