She Doesn't Mind

Luther Vandross

For love, you pay the price
You give it up, you sacrifice
And if necessary, you compromise
Sometimes it's bittersweet
You've got to try eight days a week
To create a good enough love to keep
You see, hearts belong to fire
So does her love
She burns me up with desire
My girl's love is right on time
Sweet and sweet and ever kind
She's so fine
She doesn't, she doesn't, she don't mind
Even when I come home late at night
We don't fuss, we never fight
'Cause the girl loves me to the line
She doesn't, she doesn't, she don't mind
It was out of my hands
I did my best, please understand
I was late for one of our evening plans
Champagne, dinner for two
With candlelight, she set the mood
And there wasn't anything I could do
But she is so forgiving
The one thing I know is
It's off her love I'm living
That girl's love is right on time
Sweeter than sweet and ever kind
She's so fine
She doesn't, she doesn't, she don't mind
And even when I come home late at night
We don't fuss, we never fight
'Cause the girl loves me to the line
She doesn't, she doesn't, she don't mind
When I go out to play
She doesn't mind if I'm a little bit late
She knows I think about her face
'Til I get home, 'til I get back home
What we gonna do tonight?

It's raining heavy and it's cold outside
So let's just love until we get things right
And waste a whole lotta time, I don't mind
She don't mind and I don't mind
She don't, don't
She don't, don't, she don't
I tell her the things she can't repeat
Makes her little heart just skip a beat
She blush a little bit and then I find
She doesn't, she doesn't, she don't mind
Even though our love is c'est si bon
Sometimes I like to be alone
Ring the girl on her private line
She doesn't, she doesn't, she don't mind
Go to work early, come back late
Outta my head, can't concentrate
Sometimes my love is a waste of time
But she doesn't, she doesn't, she don't mind
She's better ever than she used to be
Loving her is no mystery
Sometimes I'm not so sweet and kind
She doesn't, she doesn't, she don't mind
When I call her in the middle of the day
She's busy at work but it's okay
Not too busy to give me time
She doesn't, she doesn't, she don't mind
