

So Many Dead

Cancerslug

I'll put on the mask
I'll take up the knife
I'll put on the gloves
I'll take your life
I am a fucking force of nature
I am the beast inside the man
with life and death here in my hands
I am the one who is comingTake cover x2I'll put on the mask
I'll take up the knife
I'll put on the gloves
I'll take your life
I am a fucking force of nature
I am the beast inside the man
with life and death here in my hands
I am the one who is comingTake cover x2Oh no, not while they are sleeping x3
Fuck them, they deserve what they getI'll put on the mask
I'll take up the knife
I'll put on the gloves
I'll take your life
I am a fucking force of nature
I am the teeth of the machine
sent here to grind your world clean
I've seen so many dead, but I can have no sympathy
