

Unrevenged (Instrumental)

Floating Action

You make a real good case for never leavin' home
Would never turn you back on me
But if it makes you last until the second round
I can't expect to wait patiently
Can't leave it unrevenged
I'll keep a watchful eye on what's behind you
What might drop you in the dirt
You've got a special arrow just to shoot at me
That's so gangsta and so true
Whatever happens here will naver make a change
You can feel it in the air
It's just the card that was dealt to me
Can't leave it unrevenged
Arrest me now before you get to change your mind
I always wanted it that way
If there's a way to stop before it's too late
Please let me know what that is
Whatever it is it makes me want to set things straight
Make it better make it right
But it just can't keep me from falling down
It just can't keep me from falling down
It just can't keep me from falling down
Can't leave it unrevenged
