

Bartenders, Etc

[Dierks Bentley](#)

[Chorus]

Bartenders, barstools and barmaids
A jukebox and a pocketful of change
Just a few of my favorite things
Bartenders, barstools and barmaids Bartenders listen when you talk
Barstools are there when you can't walk
And I'll always make a waitress my best friend
Until the music stops and closin' time begins [Chorus] Outside lies a heart that's been broke
But in here it's a world of song and smoke
That way my eyes and ears can lie to me
While I drink another shot of make believe [Chorus] Bartenders, barstools and barmaids
