

# Fade to Nothing

## Rag'n'Bone Man

Don't you be so foolish  
Think that I'll be around  
When you make your mind up  
With your feet on solid ground I could be anyone, anyone  
As long as you got every single thing you want  
Think you'll be running this show all alone  
That's where you got me wrong How many times can we put ourselves through this war  
Like all the lovers that have been here before?  
How many times can we watch this fade into nothing?  
No nothing, no nothing at all Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo Don't ask for my opinion  
You can't face the truth  
Everytime I leave myself open  
You line me up to lose I could be anyone, anyone  
As long as you got every single thing you want  
Think you'll be running this show all alone  
That's where you got me wrong How many times can we put ourselves through this war  
Like all the lovers that have been here before?  
How many times can we watch this fade into nothing?  
No nothing, no nothing at all Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo Why do we sit and suffer  
Through our darkest days?  
It's time we play it over  
We make the same mistakes  
And that's where we got this wrong How many times can we put ourselves through this war  
Like all the lovers that have been here before?  
How many times can we watch this fade into nothing?  
No nothing, no nothing at all Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo  
Woohoo woohoo woo

Woohoo woohoo woo
