

Taking Control

Alberta Cross

The way of the weekend
is getting right to yah
And the city just deceived you
and then stared right at yah
And the way we learn
its the way down on the weekend
Thats taking control

Im hollow but Im heaving
where did my week go
And why do I feel cold
When Im triggered to run
And the way we are
is taking control
And the way down on the weekend
Is getting right to yah

And the way down on the weekend
Is getting right to yah
And the way we are
is taking control
