

I Will Be The Same (feat. Emma Hewitt)

[Gareth Emery](#)

Do you call my name
When you wake up on the floor
Do you feel me now, but you're not quite sure
When you turn around
Do you wonder why you see
Move your thoughts and see
Where you have been I will be the same...
You don't wanna be here no more
You've opened up your eyes and you need to go
To another place
Though it's dark you'll reach the shore
And time will see you find what you're looking for... Although time will carry on and everything will change
You can know that I will be the same...
While the tide will take us under, when nothing else remains...
You can know that I will be the same...
