Nameless World

Skip the Use

Hold on, hold on with meI've lost a lot a in this game
Another everyday face with no name
I'm not selling misery
So would you stay around with meI know that you are afraid
The traces of war linger on my face
But I'm not selling misery
Maybe some day I'll feel home againHold on, hold on with me
What if we could change this world today
Hold on, hold on with me
What if we could change this world todayDon't let me forget what it is to belong
I hope the dream like the words of this song
Whatever your harmony
Oh please just sing with meYou don't have to turn a blind eye
If you really look I'm a regular guy
But I'm not selling misery
Maybe some day I'll feel home againHold on, hold on with me
What if we could change this world today
Hold on, hold on with me
What if we could change this world todayHold on, hold on with me
What if we could change this world today
Hold on, hold on with me
What if we could change this world today
