Because I Love You

Toxic Lab Rats

I won't cheat my soul any more
I won't bang my head against the wall
I won't sit and wonder where the hell I went wrong

Fought the same battle all over again
Didn't work with my issues
Didn't care I caused pain
You had to teach me how I should act
Now I'm a better person yes that's a fact

Won't hurt myself no more
Won't hurt you no more

I won't cheat my soul anymore
I won't bang my head against the wall
I won't sit and wonder where the hell I went wrong

Won the first battle but still have some to fight
I've learned my lesson got my priorities right
Never more cause you pain and no more tears
Took me almost thirty years to defeat my fears

Won't hurt myself no more
Won't hurt you no more

I won't cheat my soul any more
I won't bang my head against the wall
I won't sit and wonder where the hell
I went wrong
I won't cheat my soul any more
I won't bang my head against the wall

Because I love you
I will sing you this song
