One Little Kiss

Sarah Geronimo

Standin' at my door
A rose in your hand and a smile
To light up your face
Got to tell you I've been
Dreamin' of this night over and over for days

[Chorus]
One little kiss and I'm a lot in love
Two little hearts turning the beat way up
Three little words from your lips nothing more
Nothing less that can mean so much
Baby just one little kiss
That's all it was

Dancin' in the dark
All night in your arms
To a song only we could hear
Baby are you the prince
I've been waitin' for
Who just suddenly appeared

[Repeat Chorus]

Maybe it was one night and one night only
My feet stopped touching the ground
Or maybe it's the start of something that keeps on goin'
Making my world spin around

[Repeat Chorus]
