

# One Little Kiss

**Sarah Geronimo**

Standin' at my door  
A rose in your hand and a smile  
To light up your face  
Got to tell you I've been  
Dreamin' of this night over and over for days

[Chorus]

One little kiss and I'm a lot in love  
Two little hearts turning the beat way up  
Three little words from your lips nothing more  
Nothing less that can mean so much  
Baby just one little kiss  
That's all it was

Dancin' in the dark  
All night in your arms  
To a song only we could hear  
Baby are you the prince  
I've been waitin' for  
Who just suddenly appeared

[Repeat Chorus]

Maybe it was one night and one night only  
My feet stopped touching the ground  
Or maybe it's the start of something that keeps on goin'  
Making my world spin around

[Repeat Chorus]

---
