

Never Know Why

James Cooper

If we're offensive and pose a threat
You fear what we represent is a mess
You've missed the message that says it all
 And you'll never know why
 Oh no, you'll never know why
 We rock
 It's just a feeling how we excite
 You cannot rule everybody in sight
 But you condemn, don't understand
 And you'll never know why
 Oh no, you'll never know why
 We rock rock rock
 We rock rock rock
 We rock rock rock
 You'll never know why
 We rock
 I leave you cold and in disgust
 Don't try to tame me, you'll eat my dust
 I know that you know not what you do
 That's why you'll never know why
 Oh no, you'll never know why
 We rock rock rock
 We rock rock rock
 We rock rock rock
 You'll never know why
 We rock rock rock
 We rock rock rock
 We rock rock rock
 You'll never know why
 We rock
