I Remember Yesterday

Donna Summer

I remember that first night we wet
Dancing to the sound of clarinets
Dancing cheek to cheek, oh how sweet
You and me and the chemistry
Oh, I remember our first nightI remember how we carried on
On and on until the light of dawn
From the very start, you stole my heart
I knew right then that we'd never part
Oh, I remember that first night(Remember that first night)
(Remember that first night)
(Remember that first night)I saw your lovelight through the candle's glow
Champagne was flowing, and so I let myself go
And when the night was over
We both looked around the room
Remember darling, chairs on the table and only me and youI remember how we carried on
On and on until the light of dawn
And from the very start, you stole my heart
I knew right then that we'd never part
I remember that first night(Remember that first night)
(Remember that first night)
(Remember that first night)
(Remember that first night)Walk me home in springtime showers
In the early morning hours
You took me to my door, we were sure
So we swore that forever more
I'll remember our first night(Remember that first night)
(Remember that first night)
(Remember that first night)
...
