

A New Breed Of Evil

Farmer Boys

it's a new breed
a new breed of evil
conceived in the moonlight
breathing firesweet fallen angel
delectable stranger
and if you don't know me
then show me infernal walls
your perfect skin
the heat between your thighs with your tongue and mine
can taste the sin
a brand new breed of evil breaks you in I can smell your sweat
and I can feel you're wet
delectable stranger
please put me in danger the gates to hell are open wide
you lead me there to come inside
and all the secrets that you hide
you show me infernal walls
your perfect skin
the heat between your thighs with your tongue and mine
can taste the sin
a brand new breed of evil breaks you in infernal walls
your perfect skin
your tongue and mine
can taste the sin
