

We'll Understand

Supreme Jubilees

Lord I'm done
All I know
Why do I have such a hard way to go?
To do good is in my heart
but every time it gets torn, torn apart I love to hear a new born baby cry
but it hurts me when in the next moment they die
And why must we struggle
so hard, hard and long
maybe you can find some consolation
in this song We'll understand
We'll understand
We'll understand
We'll understand We'll understand
We'll understand
We'll understand
We'll understand Somebody said
When you took my mother
it hurt me so bad
She was the best friend I ever had People are dying everywhere
even right next door
Airplanes fall and take even more
Somebody's lost
And home all alone
They have no one
To call on And if you don't know
What tomorrow will be
Just remember God gave these two words
and gave them to me We'll understand
We'll understand
We'll understand
We'll understand We'll understand
We'll understand
We'll understand
We'll understand
