

Smile

Numb

Flail and let flail
Cattle gladly doomed to fail
The mass of the masses
A boiling pit of seething gas
Doing time do it right
Doing nothing done up tightBile and guile
Choke it back with a smile
A tether a noose
You have to choose
Lie through the teeth shrinkwrap poison underneath
A chainmail face baring fangs to show your place
You've bought it you're sold
Where is the "why" where is a "no"Bile and guile
Choke it back with a smile
A tether a noose
You have to chooseSmash my head
Or smash my skull
? i've been shot
Or? growBile and guile
Choke it back with a smile
A tether a noose
You have to choose
Smile
Let's smile
Choked to death
On a smile
Smile
Smile
Smile
Better have a smileSmile smile
Better smile
Smile
Let's smile
Choked to death
On a smile
