Burn It Down

Los Lobos

When we were young, taking time to believe
Only to survive, what you gotta believe
Whatever we took to survive, survive in this world
In this crazy life, gotta give it a whirl
All my bridge are burning
Almost burning down
All my bridge are burning
Burning to the ground
Burning down
Burning downTrying hard to believe
That there is something more then me
Something outside of myself
Wants me to be free
Said my bridge is falling lean
That I could not return
Gotta want to walk straight ahead
To learn what I need to learnAll my bridge are burning
Almost burning down
All my bridge are burning
Burning to the ground
Its Burning down
Burning downGoing where I belong
Hope there is time for love
Don't care what time it is
Its just never enough
Just making music
keep my feet on the ground
Could not live without it
Help me to stick aroundAll my bridge are burning
Almost burning down
All my bridge are burning
Burning to the ground
Burning down
Burning downAll my bridge are burning
Almost burning down
All my bridge are burning
Burning to the ground
Burning down
Burning down
