

# Battescars

## Engine-EarZ Experiment

Of all the shooting stars I knew  
I never felt at ease with anyone but you  
Don't ever wonder where I go  
Remember that the grass still grows beneath the snow  
When everything around her moves  
Just fall asleep and wake when its all throughThere's battescars on all my guitars  
But still I come out here and playYou know I've lost your touch again  
And now I'm only one in twenty fives and then  
I promise not to let you go  
Just close your eyes and sleep right through the falling snow  
And when I finally wash ashore  
I'm coming back to kiss the girl I kissed before  
Before the shooting stars I knew  
I never fell for anyone but youThere's battescars on all my guitars  
But I still come out here and play  
There's battescars on my face and my arms  
But you still kiss me everydayThere's battescars on all my guitars  
But I still come out everyday  
There's battescars on my face and my arms  
But you still kiss me anywayThere's battescars on all my guitars  
But I still come out here and play  
There's battescars on my face and my arms  
But you still kiss me everyday  
There's battescars on my face and my arms  
But you still kiss me anyway
