

Happy Birthday (Album Version)

New Kids on the Block

Happy Birthday to you
This is your day
On this day for you
We're gonna love you in every way
This is your day, your day
Happy birthday to you, to you Happy birthday to you
You're still young
Age is just a number
Don't you stop having fun
This is your day, your day
Happy birthday to you , to you This day only comes once every year
Because you're so wonderful
With each and every thing you do
Hey Happy birthday to you
This is your day
On this day for you
We're gonna love you in every way
This is your day, your day
Happy birthday to you, to you
