

Big Love In a Small Town

Lady Antebellum

Yeah, we were sixteen and teenage broke
Back when stop signs and cigarettes smoke
Just some bad boys and some good girls, yeah
Summer nights, spent the whole world
In your green eyes and reddish set gold Yeah, we had big love in a small town
What I'd give just to get a little bit back now
Yeah, we fell in just as fast as we fell out
We were too young to settle down and a big love in a small town
In a small town, yeah We were thunderbirds and Pontiac wild
Flying in your front seat at least for a little while
Baby, tell me do you ever feel like
Our love was drowned out by a real light?
I've been reminiscing 'bout you and I, you and I, oh you and I We had big love in a small town
What I'd give just to get a little bit back now
Yeah, we fell in just as fast as we fell out
We were too young to settle down and a big love in a small town
In a small town, baby Do you ever think about me
When you close your eyes at night?
Do you ever think about me?
Lost in a dream
In a small town
In a small town We had big love in a small town
What I'd give just to get a little bit back now
Yeah, we fell in just as fast as we fell out
We were too young to settle down always distant and in and out
Ain't that the thing about big love in a small town?
In a small town, yeah
