

# Lies

## Stephen Stills

Live in a dream  
You've got everything you need  
But it still hurts inside  
The way she led you to believe  
All those vicious lies She told you some things  
Same lines she's told me before  
But she'll win your trust  
Then she'll walk over you  
Leave your soul lyin' in the dust And I know it's so hard to believe  
The same thing happened to me  
You'll just have to see for yourself  
But that woman, she thinks of herself  
And nobody else I finally got mine and now I'm gone  
I hope you get yours  
'Cause it won't be wrong  
What you see is what you get
