Some Kind Of Monster

Neon Trees

I'm some kind of monster since I lost herThere's a trap door hidden in my heart
I fell into a lover's hell deeper then I thought
I came crawling back to that motel
I don't recognize who I am tonightI'm some kind of monster since I lost her
Now I'm wrapped in wires and starting fires
I'll burn this whole thing down
Some kind of monster how bad do I want her
I don't sleep at night I'm terrorized
There's blackness in my eyesI'm some kind of monster
I'm some kind of monsterEverybody wanted her as a friend for fun
The time we took the nights we shook should have been enough
Now her face is carved into my head
She's a damsel I'm in such distressI'm some kind of monster since I lost her
Now I'm wrapped in wires and starting fires
I'll burn this whole thing down
Some kind of monster how bad do I want her
I don't sleep at night I'm terrorized
There's blackness in my eyesI'm some kind of monster
I'm some kind of monsterI used to whisper in her ear
Now I am screaming out in fear
Secrets keep me sinister but I've told her every one
So why can't she understand the creature I've becomeThere's a trap door hidden in my heart
I fell into a lover's hell deeper then I thoughtI'm some kind of monster since I lost her
Now I'm wrapped in wires and starting fires
I'll burn this whole thing down
Some kind of monster how bad do I want her
I don't sleep at night I'm terrorized
There's blackness in my eyesI'm some kind of monster
I'm some kind of monsterOoooooooooo
