

Moving On

Mat Kearney

We were young
And we were brave
With our eyes wide shut
In the choices we made
Well you lit the match
And I got caught with the flames
And your voice still rings out
Through my mind
And the thorns still twist down in my side
All the promises said
That we left for dead in the night Because I'm moving on
Letting go
Forget the past
I'm giving up the ghost
All we are is fading stars
Life's too short
To stay where we are Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on Baby I'm broken
Maybe it's the fame
Maybe it's the moment
You said I had changed
Where did 13 years go
Like I didn't know you at all Because I'm moving on
Letting go
Forget the past
I'm giving up the ghost
All we are is fading stars
Life's too short
To stay where we are Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on I heard you were back with regrets
And you meant it
I had a reply to your text
Never sent it

Well bridges were burned in an accusation
Funny how time is the great revelation Moving on
Letting go
Forget the past
I'm giving up the ghost
All we are is fading stars
Life's too short
To stay where we are Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on Forgive and let live and move on
Tell me that you're gonna make me stronger
Forgive and let live and move on
