Girlfriend

Guerilla Black

Ladies and gentlemen
Ladies and gentlemen
This is a Jazze-phizzle produc-shizzle
Jazze Pha, Jazze Pha
Ho boy! Black, Black, give it to 'em, daddy
Got somethin' that you need to know
I think I wanna make you my girlfriend
Way too fly, can't let you go
I think I wanna make you my girlfriend
Girl, you the flyest, let me inside it
Don't deny it, come on and ride it, baby, just try it
'Cause I think I wanna make you my girlfriend
I guess what they say, opposites attract
You the first make me, wanna stop my pimp back
My game tight, your frame right
We could do it, 5 or 6 times in the same night
Now I got keys for you, I believes in you
Ma, don't you know I bleeds for you?
Sheeeit, real tall, you was meant for me
No pretendin' to be, somethin' that you not
No frontin', Ma, keep it real sexy
Even though I'm thugged out like Joe Pesci
Test me, I'm a all natural born winner
We could eat Filet Mignon or shrimps for dinner
Then enter my palace, rubbin' skin with baby oil
'Till both of my hands get calloused
Huh, a fly girl in my world
No need to ask, you my girl
Come on
Got somethin' that you need to know
I think I wanna make you my girlfriend
Way too fly, can't let you go
I think I wanna make you my girlfriend
Girl, you the flyest, let me inside it
Don't deny it, come on and ride it, baby, just try it
'Cause I think I wanna make you my girlfriend
You're so captivatin', just this time I pull on my cape
And B cap to save 'em
Your flava, so distinct

I used to react fast, now, I'm so slow to think
Pink diamonds I lace you wit', yellow diamond wit' bracelet
Caribbean vacations, it's just so satisfyin'
I ain't touch ground, ever since I met you I been flyin'
Three quarters of the globe, 4 karats each lobe
Outlined in that white gold
Your frame so uniqe, my game's at the peak
Ma, can't you see? Hell, I'm playin' for keeps
Come on
Got somethin' that you need to know
I think I wanna make you my girlfriend
Way too fly, can't let you go
I think I wanna make you my girlfriend
Girl, you the flyest, let me inside it
Don't deny it, come on and ride it, baby, just try it
'Cause I think I wanna make you my girlfriend
I just wanna talk wit' ya, walk wit' ya
Forget everything Ma, I'm tryna get lost wit' ya
In a mind state, where time don't take place
At the San Pedro cliffs, different wines we taste
Toastin' to success of our relationship
Through the ups and downs I'll embrace you wit'
Nothin' but the love from the deep depths of my heart
Give you hugs in the dark, I'm a thug from the start
Hell, but it's been nothin' but heaven
It's like rollin' the dice and hittin' straight seven
Call the reverend's and get your bridesmate
I can't wait to tie the knot Ma, I just can't wait
Come on
Got somethin' that you need to know
I think I wanna make you my girlfriend
Way too fly, can't let you go
I think I wanna make you my girlfriend
Girl, you the flyest, let me inside it
Don't deny it, come on and ride it, baby, just try it
'Cause I think I wanna make you my girlfriend
Jazze Phin-zel, Washingtin-zel, huh
In the flesh with Black, uh
Real big, Mama, woo!
You see us
Coladas Mama, yeah, like that, uh huh
Whoo! Palm trees and fiends, your neck can bling
Yeah baby, can't happen to you
It can happen to you
Hey! Watch me pour Cristal on these gaiters

And they gonna swim again
Got somethin' that you need to know
I think I wanna make you my girlfriend
Way too fly, can't let you go
I think I wanna make you my girlfriend
Girl, you the flyest, let me inside it
Don't deny it, come on and ride it, baby, just try it
'Cause I think I wanna make you my girlfriend
Ladies and gentlemen, you have just been warned
Woo! That we lookin' for the girlfriend
Oh, for the girlfriend
Hey, this is for the fire
This is for the
This is for the time
This is for the pimp
Strictly for the pimp
