

Face The Face

Pete Townshend

Face the face, got to face the face
Face the face, got to face the face You must have heard the cautionary tales
The danger's hidden on the culdesac trails
From wiser [Incomprehensible] who have been through it all
[Incomprehensible] sprayed up on the wall We got to judge the judge
We got to find the finds
We got to scheme the schemes
We got to line the lines We must stake the stakes
We got to show the shown
We got to take the takes
We got to know the known Try to place the place where we can face the face
(We got to face the face)
Try to place the place where we can face the face Face the face, got to face the face
Face the face, got to face the face
Got to, got to You must have tried and defied belief
Maybe [Incomprehensible] in insular grief
I need your hunger, you need mine
A million miles can swallow up time We got to fool the fools
We got to plan the plans
We got to rule the rules
We got to stand the stands We got to fight the fight
We must fall the falls
We got to light the light
We got to call the calls We must race the race so we can face the face
(We got to race the race)
We must race the race so we can face the face Face the face, we got to face the face
We got to race the race, we got to Keep looking
New York, Chicago
London and Glasgow
Keep looking Keep on looking, keep on cooking
Go to stay on this case
Study the pix, watch the flix
We got to find the face Face the face, got to face the face
Watch the flix, got to We got to judge the judge
We got to find the finds
We got to scheme the schemes
We got to line the lines We got to fight the fight
We got to fall the falls
We got to light the light

We got to call the calls Try to place the place where we can face the face
(We got to face the face)
Try to race the race where we can face the face
Try to race the race where we can face the face
(Keep looking, keep looking) We must face the race so we can face the face
(We got to race the race)
We must face the race so we can face the face
(We got to face [Incomprehensible])
We must face the race so we must face the race
