

# Love Sick

## Cherish

Page us to depression  
As you realize that you're helpless  
Do you mind if I suggest you let it burn? Take it from a broken hearted scholar  
Who would've bet my bottom dollar  
We would work  
But I considered lesson learned I know your heart is breaking down  
Can you feel the pain working?  
I bet you feel so lonely now  
And there's no one there to comfort you Because you cheat the one you call on  
And she left you all alone  
But the tears you shed you can count on  
But your tears won't let you down so cry, cry, cry Cry, cry, cry, cry  
Fill me up an ocean  
Cry me up a river, boy, I hope  
I hope, I hope you feel so lonely That you wanna throw up  
Hope your nights are so cold  
'Cause you're missing my love Got you love sick, love sick  
And you know I'm loving it  
Listen closely  
You can hear me laughing Sleep now baby  
But when you wake up it'll be the same  
You'll realize nothing's changed  
To live in a state of agonizing pain It won't last forever  
But now it hurts like hell  
I know it may be cold  
But I, I still can't wish you well I know your heart is breaking down  
Can you feel the pain working?  
I bet you feel so lonely now  
And there's no one there to comfort you Because you cheat the one you call on  
No surprise she ain't there  
But the tears you shed you can count on  
But your tears won't let you down Cry, cry, cry, cry  
Fill me up an ocean  
Cry me up a river, boy, I hope  
I hope, I hope you feel so lonely Bet you wanna call her  
Hope your nights are so cold  
'Cause you're missing my love Cry, cry, cry, cry  
Fill me up an ocean  
Cry me up a river, boy, I hope

I hope, I hope you feel so lonely Bet you wanna call her  
Hope your nights are so cold  
'Cause you're missing my love I'm loving that you're hurting  
I'm loving you feel pain  
It's Karma, it's for certain  
This time you're in the game So glad that it's your tears  
Hope that it takes time to heal  
Yes, heartbreak is for real  
Now you see how I feel Cry, cry, cry, cry  
Fill me up an ocean  
Cry me up a river  
Boy, I hope, I hope  
I hope you feel so lonely That you wanna throw up  
Hope your nights are so cold  
'Cause you're missing my love Cry, cry, cry, cry  
Fill me up an ocean  
Cry me up a river  
Boy, I hope, I hope  
I hope you feel so lonely That you wanna throw up  
Hope your nights are so cold  
'Cause you're missing my love
