

All Night (radio Edit)

Goldfish

When I'm out at night
Take in all the sights
Filling up my eyes
Everyone has their disguise When I'm out at night
Take in all the sights
Filling up my eyes
Everyone has their disguise All day, all night
Dancing, dancing, dancing
To the dropout Wake up in the morning
Go to work still yawning
To be there by nine
We've got better things to do with our time Wake up in the morning
Go to work still yawning
To be there by nine
We've got better things to do with our time All day, all night
Dancing, dancing, dancing
To the dropout All day, all night
Dancing, dancing, dancing
To the dropout
