

# Make Me Beautiful

[Andreas Johnson](#)

Let me introduce you to my world at night  
Come wrap your arms around the dreams I hold inside  
And I'll bring you whatever you want, whatever you need  
Whatever your heart desires 'Cause you make me beautiful, so beautiful  
You make me lose it all, you're so beautiful to me Won't you please seduce me with your grace and holy wine  
Take me to your chambers, release this heart of mine  
And I'll bring you whatever you want, whatever you need  
Whatever your heart requires 'Cause you make me beautiful, so beautiful  
You make me lose it all, you're so beautiful to me Let me introduce you to my world at night  
Come wrap your arms around the dreams I hold inside 'Cause you make me beautiful, so beautiful  
You make me lose it all, you're so beautiful to me, me Let's bleed into the night, vanish, disappear  
In lover's lust and cold desire, drink the wine of our destiny  
And explode in glorious colors  
As daybreak wraps its arms around us
