

Anniversary

Sense Field

It's to you from me
Hope you like it, hope it's alright
For you from me
You can remember, this is alright
You know just living a lie
Sometimes it's never enough
Close to you close to me
It feels good it feels nice
Undressing you, undressing me
Does it feel good? Does it feel nice?
You know just living a lie
Sometimes it's never enough
Back together forever, till death do us part
Know that it's real, with your sky that you feel
And your ready to heal
And your starting to feel it a lot
