

Famous

Eli Young Band

I wish I was famous
Yeah, I wish I was famous
'Cause if I was famous
You'd know my name I've seen you downtown
I've walked up to you
But the words wouldn't come out
And you never knew 'Cause I'm just a guy just down the street
I'm just a face you've never seen
I'm just a heart you don't know is beating
But if I was famous, yeah, if I was famous
Hey, if I was famous you'd know my name Wish I was a big star
Up on the screen
And driving a fast car
Like Stevie McQueen Yeah, I wish I was someone
Instead of a no one
'Cause if I was someone
Baby, you'd know my name Maybe someday I'll understand
What it feels like to hold your hand
Maybe someday but until then I'm just a guy just down the street
I'm just a face you've never seen
I'm just a heart you don't know is beating
But if I was famous, yeah, if I was famous
Hey, if I was famous you'd know my name But if I was famous, yeah, if I was famous
Hey, if I was famous you'd know my name
Baby, you'd know my name
If I was famous, yeah, if I was famous
Hey, if I was famous, baby, you'd know my name
