## **Famous**

## **Eli Young Band**

I wish I was famous
Yeah, I wish I was famous
'Cause if I was famous
You'd know my nameI've seen you downtown
I've walked up to you
But the words wouldn't come out
And you never knew'Cause I'm just a guy just down the street

I'm just a face you've never seen
I'm just a heart you don't know is beating

But if I was famous, yeah, if I was famous

Hey, if I was famous you'd know my nameWish I was a big star

Up on the screen

And driving a fast car

Like Stevie McQueenYeah, I wish I was someone

Instead of a no one

'Cause if I was someone

Baby, you'd know my nameMaybe someday I'll understand

What it feels like to hold your hand

Maybe someday but until thenI'm just a guy just down the street

I'm just a face you've never seen

I'm just a heart you don't know is beating

But if I was famous, yeah, if I was famous

Hey, if I was famous you'd know my nameBut if I was famous, yeah, if I was famous

Hey, if I was famous you'd know my name

Baby, you'd know my name

If I was famous, yeah, if I was famous

Hey, if I was famous, baby, you'd know my name
