

Dirt On The Grave

Black Label Society

Ashes fly, ashes burn
The sun is black, ain't no return
Ashes fly, ashes burn
Over and over, ain't no need to learn
It's all dust on dust, it's all you and me
Outdone completely, outplayed
Just shovel some more dirt on the grave
The choices you make and the choices that are
When Hell is so close and Heaven so far
Ashes fly, ashes burn
Over and over, ain't no need to learn
It's all dust on dust, it's all you and me
Outdone completely, outplayed
Just shovel some more dirt on the grave
It's all dust on dust, it's all you and me
Outdone completely, outplayed
Just shovel some more dirt on the grave
