

When the Crazy Kicks In

Francesca Battistelli

Here I go tiptoeing to the kitchen
And don't you know, crash goes the coffee cup
My only chance to be still and listen
Lord, don't let, don't let the kids wake up
A little time with You, the only way to get me through the day
Oh, come meet me in this moment
Before it all gets going
These plates start to spin
When the crazy kicks in
A circus of distractions
It's just about to happen
I'll be ready when

When the crazy kicks in
Pushed and pulled by a thousand expectations
And all the roads that I'm supposed to play
To hit the ground, running's a temptation
But I have learned this lesson the hard way
A little time with You, the only way to get me through the day
Oh, come meet me in this moment
Before it all gets going
These plates start to spin
When the crazy kicks in
A circus of distractions
It's just about to happen
I'll be ready when

When the crazy kicks in
You got me, where You want me, even through the highs and lows
You know me, and You hold me, and You show me that You'll never let me [9x] go
Oh, come meet me in this moment
Before it all gets going
These plates start to spin
When the crazy kicks in
A circus of distractions
It's just about to happen
I'll be ready when
When the crazy kicks in
