

# The Moment

## Introspective Minds

From when I wake in the morning till I go and  
And I fall asleep each night  
I fight to hold onto a love that is inside  
Because my past is like a nightmare that I never can escape  
And I can't wait till I wake up so I can fall back asleep  
And I don?t understand what happened between you and me  
But you will probably end up with someone half as good as me  
So I don?t care if you want to look in my eyes and say hello  
You were blind to me, now I?m blind to you, no  
So now I wait for a moment when I know that there?s no one left to see  
All the hurt that?s inside me and the reason that I need  
I need to let go of the things, I see that have always let me fall  
And I cannot find my way home, no, because I?m already home  
And I don?t understand what happened between you and me  
But you will probably end up with someone half as good as me  
  
So I don?t care if you want to look in my eyes and say hello  
You were blind to me, now I?m blind to you, no  
Blind to me, blind to you  
And I don?t know what you need but I know you?re listening now  
And I don?t care what you think because you didn?t think to care about me  
And I don?t know what you need but I know you?re listening now  
And I don?t care what you think because you didn?t think to care about me  
And I don?t understand what happened between you and me  
But you will probably end up with someone you know that is half as good  
So I don?t care if you want to look in my eyes and say hello  
You were blind to me, now I?m blind to you, no  
You were blind to me, now I?m blind to you
