

So Negative

Bodyjar

When there's nothing left inside, you know
And I don't feel anything
I put it on and turn it up and it feels right
And I can deal with anything
Can you repeat it?
And I won't feel so negative
What is the chance of it?
When you feel so unwelcome and sold out
What is the chance of it?
When you've been lying to me and I found out
Put it on when things are rough
How many times can I repeat everything?
Cue it up and then decide
It's all, want you to hear everything
Can you repeat it?
And I won't feel so negative
What is the chance of it?
When you feel so unwelcome and sold out
What is the chance of it?
When you've been lying to me and I found out
What is the chance of it?
When you feel so unwelcome and sold out
What is the chance of it?
When you've been lying to me and I found out
What is the chance of it?
Can you repeat it?
And I won't feel so negative
What is the chance of it?
When you feel so unwelcome and sold out
What is the chance of it?
When you've been lying to me and I found out
This is the last time
I've said it, said it
This is the last time
I've said it, said it
What is the chance of it?
What is the chance of it?
