

# Loss of Flesh

## Gorefest

End your life  
Are there reasons to go on?  
Pain won't hurt  
'Cause you know you'll soon be gone  
Relatives will mourn  
'Cause of the loss of one beloved  
In time they'll forget  
And you'll be gone into the past, die  
Blood flows on  
Your mind is feeling free  
Dying isn't hard  
It's happening easily  
Why should life  
Only be ended by the God?  
Decision is up to you  
End it or not  
Has mankind lost its sanity?  
Trying to reach for immortality  
The fear for dying is hidden deep  
No faith in their eternal sleep, eternal sleep  
I was born alive  
Isn't that punishment enough?
