

Clear It Out

Trina

Yeah, it's clear I'm livin' the life for the rich and the famous
In every magazine published I'm gracin' the pages
Media versus celebrities, it's outrageous
Put on a [Incomprehensible] you can rock a few stages I'm setting new standards for women rappers embracing
My chronological makeup a switch a bitch pace up
A trend setter, go getta, money maker, bread winner
Dropped in '98 had the world sayin' nann nigga I been around the world and everybody hatin'
If they talkin' I'm the topic of the conversation
Now clear it out, clear it out
I had it up to here, clear it out, clear it out
I had it up to here I had a lot of friends, now I got a lot of foes
When you gettin' money guess this is just the way it goes
Now clear it out, clear it out
I had it up to here, clear it out, clear it out
I had it up to here Now everybody talkin' 'bout me, I could give a damn tho'
If they hatin' now wait till they see me in the Lambo'
Thousand dollar shoes, European jewels
Million dollar cribs with the swimmin' pools I'm just doin' me, you should be doin' you
Get your own hoe don't worry 'bout my revenue
I brought it from the hood to the big screen
Now I'm prime time cover of the magazine I been around the world and everybody hatin'
If they talkin' I'm the topic of the conversation
Now clear it out, clear it out
I had it up to here, clear it out, clear it out
I had it up to here I had a lot of friends, now I got a lot of foes
When you gettin' money guess this is just the way it goes
Now clear it out, clear it out
I had it up to here, clear it out, clear it out
I had it up to here Stop that poppin' 'bout the south, clear it out, clear it out
And keep my name up out your mouth, clear it out, clear it out
Fuck them hatas and them hoes, clear it out, clear it out
You gettin' doe let it show, clear it out Stop that poppin' 'bout the south, clear it out, clear it out
And keep my name up out your mouth, clear it out, clear it out
Fuck them hatas and them hoes, clear it out, clear it out
You gettin' doe let it show, clear it out I been around the world and everybody hatin'
If they talkin' I'm the topic of the conversation
Now clear it out, clear it out
I had it up to here, clear it out, clear it out
I had it up to here I had a lot of friends, now I got a lot of foes

When you gettin' money guess this is just the way it goes
Now clear it out, clear it out
I had it up to here, clear it out, clear it out
I had it up to here, yeah
