

Outsider

[Juliana Hatfield](#)

Underneath the sky
Driving through the snow
Something in my mind
Pulls me off the roadGot to get it down and out
Before it goes
Got to tell myself
What I need to knowI see you from the thirteenth floor
This hotel has a thirteenth floor
Im thinking out the window
"Come up and watch a video"Did you ever see the birth
Or first steps of a tune?
Beautiful to me
An alien to youIt has got a face
Only I could love
And I know my place
Outside the hubHes someone that you kinda know
Hes someone that youd like to know
You kiss him on the cheek and go
You gotta go and be aloneI see you from the thirteenth floor
This hotel has a thirteenth floor
Im dreaming out the window
"Come up and watch a video"
