

# I Would

## Jack Ingram

If I close my eyes a while  
Maybe I'd see through  
Yeah, I'd see through the miles  
That won't keep me from youAnd an arms length away  
    Is to far of a place  
    Yeah, maybe what you need  
    Be my saving graceAnd I would if I could  
        And I want you to know  
        If you ask I would give  
You better believe I wouldYeah, well they say nothing lasts  
    And I don't believe that's true  
    And I would do my best  
Just make this good for youAnd I would if I could  
    And I want you to know  
    If you ask I would give  
You better believe I wouldI bet you'd be amazed  
    If I shut my mouth  
    And just listened to you say  
That you're letting me stick aroundAnd I would if I could  
    And I want you to know  
    If you ask I would give  
You better believe I wouldYeah, I would if I could  
    And I want you to know  
    If you ask I would give  
You better believe I wouldYeah, you better believe I would  
    Yeah, you better believe I would
