Fate

Young Man

Fate is not something new
nothing time is not what you knew
oh oh oh oh
It's no surprise
Space, is not what you knew

Fates are on the line
Often when you don't have time
oh oh oh
It's no surprise
Fate is not what you choose

With my heart, my head it is the end
Then there is no, there is no, there is nothing i can't do
But if my fate it is a lie
then my fate is for me to
from doing the things that i like
From changing myself

Fate is my chance to make it
and try and try and try
Fate isn't my chance to make it
and try and try and try.
