

Cry Out

Yaakov Chesed

Someone showed me a reel the other day
They were fighting they were fighting
I tried so hard to look the other way
I couldn't take it my people dying everyday

What hurts the most is that I sit here
While they fear while they're in fear
Cry out I cry out
Lord I can't take it anymore
I just can't take it

Hold onto love strong
And pray for strength to find your peace
Hold onto love strong and pray for strength
To find your peace again
If people believe all that they see on TV
They could lose it

My nation made out to be the enemy
Just remember who you swore to defeat
When the towers fell down
Hold onto love strong
And pray for strength to find your peace
Hold onto love strong and pray for strength to

Find your peace again
I am holding on
I am holding on
I am holding on
I am holding on
