

Reason To Love

Our Last Night

Here's another morning
Where I can't decide to sleep or stay awake
And I'm tangled up in thoughts
Thoughts of how we fell apart I tried to make it work but all you did was make it worse
And all you've done is leave me hopeless
Ever since that day you made those feelings go away
And I've needed someone to show me that
That there's a reason to love
That there's a reason to love again Even with a warning
I couldn't have fixed us to save my life
It's hard when you're alone to pick up the pieces I tried to make it work but all you did was make it worse
And all you've done is leave me hopeless
Ever since that day you made those feelings go away
And I've needed someone to show me that
That there's a reason to love
That there's a reason to love again
