

# I've Been Waiting for You

## Costanza

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
Place you on a pedestal  
My discovery, I pray  
Angel with a dirty face  
And a natural love  
All my senses sway  
Let me find you  
Let me take you  
Let me show you  
This love is the only one  
That never hurts  
I pray  
Somebody to shelter me  
To follow me  
Like a non-stop game  
Let me find you  
Let me take you  
Let me show you  
All my patience  
All my trouble  
All my passion  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
Diving in the mystery

I wet my feet  
I pray  
You kingdom enchants me  
Like a memory  
And your eyes will sing  
Let me find you  
Let me take you  
Let me show you  
All my patience

All my trouble  
All my passion  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
Let me find you  
Let me take you  
Let me show you  
Let me find you  
Let me take you  
Let me show you  
Let me take you  
Let me take you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you
